1: Child Growth and Development (Paris, Ricardo, Rymond and Johnson)

This text is a presentation of how and why children grow, develop, and learn. We will look at how we change physically over time from conception through adolescence. We examine cognitive change, or how our ability to think and remember changes over the first 20 years or so of life. And we will look at how our emotions, psychological state, and social relationships change throughout childhood and adolescence.

- 1.1: Introduction to Child Development
- 1.2: Conception, Heredity, and Prenatal Development
• 1.3: Birth and the Newborn

• 1.4: Physical Development in Infancy and Toddlerhood

• 1.5: 5. Cognitive Development in Infancy and Toddlerhood
