This text provides an introduction to tests and measurements in an educational setting. Students will construct the knowledge and understanding needed for selecting, administering, diagnosing, evaluating and reporting results of standardized and informal techniques of measurement. This course will review definitions, concepts, and current issues in measurement.
3: Key Practices in Instruction
4: Assessment
5: Forms of Thinking
6: Feedback
7: Creating Assessment Questions
8: Ethics and Legal Issues in Education
9: Standardized Assessments
